Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from California Irrigation District Laws This bulletin contains in complete form only those laws relating to California irrigation district organizations which come before the state engineer or the state bond certification commission for some part of their procedure. There are other statutes providing for additional forms of organization with which neither the state engineer nor bond certification commission has any official duties. Such statutes are briefly described herein but are not included. The extent to which the different forms of irrigation district laws have been utilized in the irrigation development of the state has made it desirable to assemble such acts together with their amendments in convenient published form. The number and importance of the changes made in these acts at each session of the legislature has made it essential to revise these publications following each session. This has been done, and the bulletins of this department containing these laws for past years are listed together with other bulletins of the department on the inside back cover of this publication. There are other acts relating to the functions of the Division of Water Resources which are not contained in this bulletin. Such acts include the water commission act, and the act relating to the supervision of dams. References to separate publications of these acts, where available, are also given inside the back cover of this bulletin. The wide variation in the conditions in different areas desiring to organize for irrigation development in California has resulted in the enactment of a similarly wide variety of acts for such purposes. Such variations include those of size of the area to be organized, extent and character of the purposes...
